

EXHIBITION

**“DON'T SAY ANYTHING AGAINST
TELEPHONE DIRECTORIES!”**

On the occasion of the BAB's 50th anniversary, we invite you to our new exhibition. The exhibition sheds light on aspects of one key question: How do a library, an archive and a publishing house handle African knowledge in Europe today?

As a documentation centre on Namibia and southern Africa, the BAB's tradition is rooted in the decolonisation of African knowledge. In this exhibition, we reflect on the acquisition, accessibility and dissemination of African knowledge and content in publications and documents of any kind.
